
Audi Q8 e-tron – Exterior design

New face, new name, new corporate identity

By calling this model the Q8, Audi is making a clear statement that the Audi Q8 e-tron* is the top model among its electric SUVs and crossovers. The Audi Q8 e-tron* and Q8 Sportback e-tron* are immediately identifiable as fully electric models at first glance.

This is thanks to the new front and rear designs with the characteristic Singleframe mask, the inverted grille, and blade above the redesigned rear diffuser, which systematically carry Audi's electric design language forward. An exclusive highlight on the edition S line package is the Singleframe grille, which is finished in body color.

As a prestigious electric SUV model from Audi, the Q8 e-tron* ushers in the new corporate identity with a two-dimensional design of the four rings on the exterior. In order to elevate the family logo as a central element, Audi highlights the vehicle's face with the projection light Singleframe. Additionally, the Q8 e-tron is the first model to feature the new model badge with Audi lettering on the B-pillar.

***Audi Q8 50 e-tron** Combined electric power consumption in kWh/100 km (62.1 mi): - (NEDC); 24.0–20.1 (WLTP); combined CO2 emissions in g/km (g/mi): 0 (0)

Audi Q8 55 e-tron Combined electric power consumption in kWh/100 km (62.1 mi): - (NEDC); 24.4–20.6 (WLTP); combined CO2 emissions in g/km (g/mi): 0 (0)

Audi SQ8 e-tron Combined electric power consumption in kWh/100 km (62.1 mi): - (NEDC); 28.0–24.6 (WLTP); combined CO2 emissions in g/km (g/mi): 0 (0)

Audi Q8 50 Sportback e-tron Combined electric power consumption in kWh/100 km (62.1 mi): - (NEDC); 23.7–19.5 (WLTP); combined CO2 emissions in g/km (g/mi): 0 (0)

Audi Q8 55 Sportback e-tron Combined electric power consumption in kWh/100 km (62.1 mi): - (NEDC); 24.1–19.9 (WLTP); combined CO2 emissions in g/km (g/mi): 0 (0)

Audi SQ8 Sportback e-tron Combined electric power consumption in kWh/100 km (62.1 mi): - (NEDC); 27.0–23.5 (WLTP); combined CO2 emissions in g/km (g/mi): 0 (0)

Only consumption and emissions values are only available according to WLTP and not according to NEFZ for this vehicle. Information on fuel consumption and CO2 emissions in ranges are dependent on the chosen vehicle specification.
